Chelten House was informed of a spoilage issue with Simply Natural Organic Sriracha Sauce (BEST BEFORE 2017-12-17). A review of the effected product presented by the distribution centers, as well as inspection of all internal samples has been completed. All internal samples were found without defect. In addition, no complaints have been received at the consumer level for this production lot. After conducting our investigation, it is recommended that the product is voluntarily withdrawn from warehouses, distribution centers, and stores.

Thank you,
